RE: <u>Application for position of SQL Server Database Administrator</u>

Dear Sir,

It is with great pleasure that I write to inform you of my excitement as I apply, I have recently heard that your organization is in need of a software developer, and I am writing to you to submit my resume for review. As a full-stack developer with two year and half of my experience executing in different field as Web ,apps , software developer ,sql database ,Mysql database, and MongoDb , I think I am fully prepared to succeed in your organization.

My professional experience on working in different programming languages such as python, php, javascripts, html , css and react.in working in those different languages helps me to solve the problems quickly as improvement in my areas as developer.

In addition to these accomplishments, I believe I have the perfect blend as developer and personality necessary to thrive as a software developer it will be a pleasure to be a part of your team and I can learn more about your company. I have attached my CV If you are interested in scheduling an interview, and then please contact me if you require any further information.

I am looking forward to receiving a positive response from you.

Yours sincerely,

Faysal
